

QT604

Quantec Monitoring Point Button Reset

Overview

A keyswitch-isolatable monitoring point c/w a RESET button for cancelling calls.

Can be configured to generate a Standard or Emergency call when a fire exit or drug cupboard is opened (via magnetic contacts) or a telephone or door bell rings.

Can be used to monitor any device with a normally open or normally closed switch - ideal for interfacing PIRs, strip switches, flow switches and other devices to Quantec.

Red/green reassurance LED.

When isolated, the QT604's reassurance LED will illuminate Green and the monitored door or device may be opened and closed without signalling a call on the system.

Mounts on a standard UK 25mm single gang flush or surface back box.

QT604M secure magnetic reset version also available.
