

Key Release IP56 Mushroom Call Button

VIAC-CLM-56-KR

The VIAC-CLM-56-KR Assist Call IP56 Weatherproof Mushroom Call button is fully compatible with the Lexicomm, AssistCall, and Unicorn Voice product ranges.

- Key Reset
- IP56 ABS Enclosure
- Pool Alarm
- Panic Alarm
- Highly Visible

Overview

The ViAC-CLM-56-KR can provide a simple solution for applications such as Pool Alarms and Panic Buttons in fact any application requiring a mushroom call button.

It is wired on a dedicated line but an over door plate can be wired on the same circuit to provide audible and visual indication if required. A cancel button is not used due to the key reset, due to its operation the acknowledgement feature is not compatible with this product.

For simplicity, all wiring is a standard two core cable, the wiring order of the plates is not fixed and therefore can be wired in any order to give total flexibility, several ViAC-CLM-56-KR buttons can be wired in the circuit.

There are 20mm cable entries on the top and bottom and a cable entry at the rear via a cut out.

Technical Specification

Details	VIAC-CLM-56-KR	
Physical		
Height	75mm	
Width	80mm	
Depth	55mm Including Button 86mm	
Weight	190g
