

# 6.5mm Jack to RJ12 Adaptor

## Overview

- Allows an ancillary calling device with a 6.35mm remote socket (such as an NC805C/6 tail call lead or a QT644 floor pressure mat) to be connected to one of the two RJ12 sockets on a Quantec-Pro call point.
- Typically used for retrofitting a care facility's existing devices to a Quantec-Pro call system during a system upgrade.
- Please note that QP805/6G1 tail call leads are also available - these are supplied with an RJ12 connector as standard negating the need for an adaptor.
- New-look 'dippable' tail call leads are also due for release in early 2026

## More Information

Quantec-Pro is C-TEC's next generation addressable call system. It keeps everything that is good about existing Quantec – stable protocol, ease of system set-up, optional Cloud based data monitoring – and enhances it with stylish devices, improved power efficiency, greater programming flexibility and more. The result – a powerful, aesthetically-pleasing call system that is perfect for use across the entire care sector.

## Technical Specifications

Compatibility	C-TEC's Quantec-Pro System
Connections	6.5mm socket; RJ12 connector
Product dimensions (mm)	33 W x 68 H x 33 D mm (adaptor unit); 130mm lead
Construction & finish	Plastic
IP Rating	IP40
Weight	34g
Operating conditions/temperature	-5°C to +40°C. Max. relative humidity 95% non-condensing
